ROLE DETAILS

Contract / Perm	Contract
Title	Business Analyst
Profile	Technical Business Analyst
Location	Aldgate, London
No of yrs of exp reqd	15 + Years

CLIENT

Our client

Global leader in technology services, consulting and outsourcing services, having client base in more than 50 countries.

End client

British multinational oil and gas company headquartered in London

Business Challenge of the client

Immediate joiner was the prime requirement for this role.

Challenges faced in fulfilling this role

Average pay scales within which we had to play, required sound understanding of the role and good negotiation skills apart from using innovative sourcing methods.

What is unique and challenging about this closure

Multiple candidates were interviewed by the end customer who wanted to closely monitor the hiring of this critical role. Many suitable profiles were rejected due to high salary expectations of the candidates. Timely and within budget closure were the highlights of this opportunity.
