## CLIENT

Our client

A global leader in technology services & consulting, helps clients in more than 50 countries to create & execute digital transformation strategies.

End client

Largest Banking client in Ireland.

Business Challenge of the client

To find an experienced local candidate at a lower rate, who could join immediately.

Challenges faced in fulfilling this role

The location was a bit of a challenge & the pool of rightly skilled resources was limited. Most of the consultants were either not looking to change or had already started their evaluation process for similar type of roles.

What is unique and challenging about this closure

It was difficult to find Technical Scrum Master with all the skill sets (Python, Django, MySQL, Java, GWT 2.3, EMC Documentum CMS, Oracle) for Dublin location. Tapping various sources, including the premium ones which we used, had proven extremely helpful in the search of the right candidate.
