Case Study: Middleware Lead Administrator _ Cardiff, UK

CLIENT

Our client

A leading multinational corporation that provides business consulting, information technology and outsourcing services. It has its headquarters in Bangalore, Karnataka, India. It is the second-largest Indian IT company.

End client

A leading multinational corporation that provides trade credit insurance, surety and collections services worldwide through a presence in more than 50 countries around the globe. It is the credit insurance arm of Grupo Catalana Occidente (GCO.MC).

Business Challenge of the client

It is an urgent requirement from the client. We submitted many profiles the client was specifically looking for someone strong in Oracle Fusion Middleware along with multiple Cloud Options like OCI, Amazon, Azure. Sourcing, Pure C# Developer with desired experience in frontend development, at minimum salary was a big challenge.

Challenges faced in fulfilling this role

Sourcing, Strong Middleware Administrator with the desired level of experience, at average pay rate was a big challenge and extensive experience in Oracle Fusion.

What is unique and challenging about this closure

There is less profile available on Job Portal (Monster). It is difficult to search for a candidate and also to convince them for relocation at such a low rate.
