CLIENT

Our client

Global technology solution and services leader providing business-friendly solutions, that enable future-readiness for clients. We seamlessly bring together digital expertise, strong industry specific alliances and deep domain expertise from business groups.

End client

This bank is a wholly owned subsidiary of the Spanish Santander Group. It is based in Boston and its principal market is the northeastern United States. It has \$57.5 billion in deposits, operates about 650 retail banking offices and over 2,000 ATMs, and employs approximately 9,800 people. It offers an array of financial services and products including retail banking, mortgages, corporate banking, cash management, credit card, capital markets, trust and wealth management, and insurance.

Business Challenge of the client

This role was urgent for our client and we submitted many profiles for this position. The client was looking for strong Database admin with experience of SQL & oracle Data base, so we mined many profiles & submitted the best one.

Challenges faced in fulfilling this role

Sourcing, rightly skilled Database Admin with desired level of experience, at low salary was a big challenge.

What is unique and challenging about this closure

There are less resources with the right skillset. Also, they don't want to work in the salary that was offered from the client. The candidates want to stay and work in London and Milton Keynes was at the outer area of London
