CLIENT

Our client

Client is a global IT solutions and services company based in Mumbai, India. In 2017, NASSCOM ranked it as the sixth-largest Indian IT services company in terms of export revenues. It was among the top 15 IT service providers globally in 2017, according to the Everest Group's PEAK Matrix for IT service providers.

End client

Client is the consumer division of financial services multinational Company. It was founded in 1812 as the City Bank of New York, and later became First National City Bank of New York. The bank has 2,649 branches in 19 countries, including 723 branches in the United States and 1,494 branches in Mexico operated by its subsidiary Banamex.

Business Challenge of the client

This role was important for our client, Client was in need of 5 Information Security persons to join the team. We submitted many profiles for this position but client was very specific regarding experience in Security and Vulnerability management, also looking for expert user of MS Office Suite and SQL/Database.

Challenges faced in fulfilling this role

Sourcing skilled Information Security person with sound knowledge of Databases was quite challenging, also this role was based out in Budapest Hungary which is again challenging because some people don't know English. Salary was also quite low as per the expectations.

What is unique and challenging about this closure

Biggest challenge of this role is to get a good candidate skilled in Information Security in country like Hungary at the low rate.
