

Industry Focus : **Banking**

## Candidate Name – O M

### ROLE DETAILS

Contract / Perm	Contract
Title	Android Developer
Profile	Android Developer
Location	London. UK
No of yrs of exp reqd	6 + Years

## CLIENT

### Our client

A leading multinational corporation that provides business consulting, information technology and outsourcing services.

### End client

Client is one of the world's largest banking and financial services organisations which serve more than 40 million customers through our global businesses: Wealth and Personal Banking, Commercial Banking, and Global Banking & Markets. Their network covers 64 countries and territories in Europe, Asia, the Middle East and Africa, North America and Latin America.

### Business Challenge of the client

**Client was looking for Android Developer with the experience of Kotlin.**

### Challenges faced in fulfilling this role

Sourcing, rightly skilled Android Developer with desired level of experience, at average pay rate was a big challenge and extensive experience in Kotlin & Retrofit was tough to find.

### What is unique and challenging about this closure

**The candidate was on holidays and we had to convince him to take the interview which we also informed the same to client. Having professional help with management to focus on operating concerns. There were very less profiles with such skillset like Retrofit & Kotlin but at last we closed this challenging role.**
