4+ Years

Case Study: R&D_ Abu Dhabi_ UAE

CLIENT

Our client

Technology Innovation Institute (TII) is a publicly funded research institute, based in Abu Dhabi, United Arab Emirates. It is home to a diverse community of leading scientists, engineers, Mathematicians and researchers from across the globe, transforming problems and roadblocks into Pioneering research and technology prototypes that help move society ahead.

End client

Same as above

Business Challenge of the client

This role was very difficult, one of the niche profiles to find across the globe. Client was specifically looking for Cryptanalyst who was having Ph.d in Cryptography and good publications. Nationality concern is also there, because it is government owned institute.

Challenges faced in fulfilling this role

The profile was very niche, very few people are working on same role across the globe. Difficult to convince people for relocation to Abu Dhabi, UAE.

What is unique and challenging about this closure

Very rare profile to find out and Very difficult to convince people to come down to UAE. But somehow we managed to close this role with a perfect candidate.
