CLIENT

Our client

Client is an Indian Global Information technology solutions and services.

End client

.
is a South Korean multinational electronics company headquartered in Yeouido-dong, Seoul, South Korea.

Business Challenge of the client

This was an urgent requirement from the client. We submitted many profiles but client was specifically looking for someone having strong experience in infotainment with German speaking.

Challenges faced in fulfilling this role

Sourcing that specific Skills, for that location\

What is unique and challenging about this closure

There was very less profile available on Job Portal (RPS), it was difficult to find a local candidate and also difficult to convince them for relocation.
